**Dry Vitamin E Acetate 50 % DC/GFP**

# Vegetarian dry powder for direct compression

Dry Vitamin E Acetate 50% DC/GFP

Human Nutrition

## Dry Vitamin E Acetate 50% DC/GFP

- All ingredients are vegetarian (non-animal-derived), protein-free, GMO-free, and nonallergenic according to EU's allergen directive (2003/89/EC)
- Free-flowing, nondusting beadlet powder with high density and narrow particle size distribution

## Application

- Dietary supplements, especially for multivitamin mineral tablets made by direct compression
  - No oil expression at compression or discoloration of tablets
  - High tablet stability

- Dry Vitamin E Acetate 50% DC/GFP is currently the **ONLY** formulation that combines the following new features:
  - Vegetarian (animal-free, kosher and halal certified)
  - Allergen-free (protein-free)

**WITHOUT** compromising on:

- Stability in bulk and in multivitamin tablets produced by direct compression
- Powder characteristics
